Disclosure of Expenses (Unaudited)

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs, including sales charges (loads) on purchase payments; and (2) ongoing costs, including management fees; distribution and/or service (12b-1) fees; and other Fund expenses. This Example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds. You will be assessed fees for outgoing wire transfers, returned checks and stop payment orders at prevailing rates charged by Mutual Shareholder Services, LLC, the Fund's transfer agent, and IRA accounts will be charged an \$8.00 annual maintenance fee.

The Example is based on an investment of \$1,000 invested at the beginning of the period and held for the period July 1, 2020 through December 31, 2020.

Actual Expenses

The first line of the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During the Period" to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes

The second line of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in this Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as, the charges assessed by Mutual Shareholder Services, LLC as described above or the expenses of underlying funds. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

NOTES TO THE FINANCIAL STATEMENTS
CASTLE TANDEM FUND
December 31, 2020
(Unaudited)

1.) ORGANIZATION

Castle Tandem Fund (the "Fund") was organized as a diversified series of the PFS Funds (the "Trust") on March 5, 2019 and commenced operations on March 15, 2019. The Trust is an open-end investment company established under the laws of Massachusetts by an Agreement and Declaration of Trust dated January 13, 2000, as amended on January 20, 2011 (the "Trust Agreement"). The Declaration of Trust permits the Trustees to issue an unlimited number of full and fractional shares of multiple separate and distinct portfolio series the assets and liabilities of which are separate and distinct from the assets and liabilities of the other series portfolios of the Trust. As of December 31, 2020, there were thirteen series authorized by the Trust. The investment adviser to the Fund is Castle Investment Management, LLC (the "Adviser") and the sub-adviser to the Fund is Tandem Investment Advisors, Inc. (the "Sub-Adviser"). Significant accounting policies of the Fund are presented below.

2.) SIGNIFICANT ACCOUNTING POLICIES

The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification Topic 946 *Financial Services - Investment Companies*. The financial statements are prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP"). The Fund follows the significant accounting policies described in this section.

SECURITY VALUATION:

All investments in securities are recorded at their estimated fair value, as described in Note 3.

SHARE VALUATION:

The NAV is generally calculated as of the close of trading on the New York Stock Exchange (the "Exchange") (normally 4:00 p.m. Eastern time) every day the Exchange is open. The NAV is calculated by taking the total value of the Fund's assets, subtracting its liabilities, and then dividing by the total number of shares outstanding, rounded to the nearest cent. The offering price and redemption price per share is equal to the net asset value per share.

FEDERAL INCOME TAXES:

The Fund's policy is to continue to comply with the requirements of the Internal Revenue Code that are applicable to regulated investment companies and to distribute all of its taxable income to shareholders. Therefore, no federal income tax provision is required. It is the Fund's policy to distribute annually, prior to the end of the calendar year, dividends sufficient to satisfy excise tax requirements of the Internal Revenue Code. This Internal Revenue Code requirement may cause an excess of distributions over the book year-end accumulated income. In addition, it is the Fund's policy to distribute annually, after the end of the fiscal year, any remaining net investment income and net realized capital gains.

The Fund recognizes the tax benefits of certain tax positions only where the position is "more likely than not" to be sustained assuming examination by tax authorities. Management has analyzed the Fund's tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns filed for open tax years. The Fund identifies its major tax jurisdictions as U.S. Federal tax authorities; however, the Fund is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next twelve months. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statement of Operations. During the six month period ended December 31, 2020, the Fund did not incur any interest or penalties.

DISTRIBUTIONS TO SHAREHOLDERS:

Distributions to shareholders, which are determined in accordance with income tax regulations, are recorded on the ex-dividend date.

The treatment for financial reporting purposes of distributions made to shareholders during the period from net investment income or net realized capital gains may differ from their ultimate treatment for federal income tax purposes. These differences are caused primarily by differences in the timing of the recognition of certain components of income, expense, or realized capital gain for federal income tax purposes. Where such differences are permanent in nature, they are reclassified in the components of the net assets based on their ultimate characterization for federal income tax purposes. Any such reclassifications will have no effect on net assets, results of operations, or net asset value per share of the Fund.

Notes to the Financial Statements (Unaudited) - continued

USE OF ESTIMATES:

The financial statements are prepared in accordance with GAAP, which requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

EXPENSES:

Expenses incurred by the Trust that do not relate to a specific fund of the Trust are allocated to the individual funds based on each fund's relative net assets or another appropriate basis.

OTHER:

The Fund records security transactions based on a trade date for financial reporting purposes. Dividend income is recognized on the ex-dividend date, and interest income, if any, is recognized on an accrual basis. The Fund uses the specific identification method in computing gain or loss on the sale of investment securities. Withholding taxes on foreign dividends have been provided for in accordance with the Fund's understanding of the applicable country's tax rules and rates. Discounts and premiums on securities purchased are amortized over the lives of the respective securities.

3.) SECURITIES VALUATIONS

The Fund utilizes various methods to measure the fair value of most of its investments on a recurring basis. GAAP establishes a hierarchy that prioritizes inputs to valuation methods. The three levels of inputs are:

Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.

Level 2 - Inputs other than quoted prices included in level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Level 3 - Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Fund's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

FAIR VALUE MEASUREMENTS:

A description of the valuation techniques applied to the Fund's major categories of assets and liabilities measured at fair value on a recurring basis follows.

Equity securities (common stocks). Equity securities generally are valued by using market quotations, but may be valued on the basis of prices furnished by a pricing service when the Adviser believes such prices accurately reflect the fair value of such securities. Securities that are traded on any stock exchange or on the NASDAQ over-the-counter market are generally valued by the pricing service at the last quoted sale price. Lacking a last sale price, an equity security is generally valued by the pricing service at its last bid price. Generally, if the security is traded in an active market and is valued at the last sale price, the security is categorized as a level 1 security, and if an equity security is valued by the pricing service at its last bid, it is generally categorized as a level 2 security. When market quotations are not readily available, when the Adviser determines that the market quotation or the price provided by the pricing service does not accurately reflect the current fair value, or when restricted securities are being valued, such securities are valued as determined in good faith by the Adviser, subject to review of the Board of Trustees (the "Trustees" or the "Board") and are categorized in level 2 or level 3, when appropriate.

Notes to the Financial Statements (Unaudited) - continued

Money market funds. Money market funds are valued at net asset value provided by the funds and are classified in level 1 of the fair value hierarchy.

In accordance with the Trust's good faith pricing guidelines, the Adviser is required to consider all appropriate factors relevant to the value of securities for which it has determined other pricing sources are not available or reliable as described above. There is no single standard for determining fair value, since fair value depends upon the circumstances of each individual case. As a general principle, the current fair value of an issue of securities being valued by the Adviser would appear to be the amount which the owner might reasonably expect to receive for them upon their current sale. Methods which are in accordance with this principle may, for example, be based on (i) a multiple of earnings; (ii) a discount from market of a similar freely traded security (including a derivative security or a basket of securities traded on other markets, exchanges or among dealers); or (iii) yield to maturity with respect to debt issues, or a combination of these and other methods.

The following table summarizes the inputs used to value the Fund's assets measured at fair value as of December 31, 2020:

<u>Valuation Inputs of Assets</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Common Stocks	\$24,412,005	\$0	\$0	\$24,412,005

Total	\$33,376,839	\$0	\$0	\$33,376,839

The Fund did not hold any Level 3 assets during the six month period ended December 31, 2020.

The Fund did not invest in derivative instruments during the six month period ended December 31, 2020.

4.) INVESTMENT ADVISORY AGREEMENT AND SERVICES AGREEMENT

The Fund entered into an Investment Management Agreement with Castle Investment Management, LLC as the investment adviser of the Fund. Under the terms of the Investment Management Agreement, the Adviser manages the investment portfolio of the Fund, subject to policies adopted by the Trust's Trustees. The Adviser, at its own expense and without reimbursement from the Fund, furnishes office space and all necessary office facilities, equipment and executive personnel necessary for managing the assets of the Fund. For its services, the Adviser receives an annual investment management fee of 1.00% of the average daily net assets of the Fund. The Sub-Adviser of the Fund has responsibility for providing investment ideas and recommendations for the assets of the Fund, subject to the supervision of the Adviser. As full compensation for all services rendered, including investment ideas and recommendations for the assets of the Fund, the Adviser pays the Sub-Adviser a sub-adviser fee. For the six month period ended December 31, 2020, the Adviser earned management fees totaling \$123,792. At December 31, 2020, the Fund owed \$27,506 to the Adviser.

The Fund also has a Services Agreement with the Adviser (the "Services Agreement"), under which the Fund pays the Adviser. Under the Services Agreement, the Adviser shall supervise the Fund's business affairs and is obligated to pay the operating expenses of the Fund excluding management fees, brokerage fees and commissions, taxes, borrowing costs (such as (a) interest and (b) dividend expenses on securities sold short), underlying fund fees and expenses, and extraordinary or non-recurring expenses. In addition, to the extent not otherwise provided by other parties under agreements with the Trust, the Adviser shall supply: (i) non-investment related statistical and research data; (ii) the services of a Chief Compliance Officer for the Trust; and (iii) executive and administrative services. The Adviser shall also assist with and/or supervise the preparation by the Trust's administrator, transfer agent, and/or auditors of: (i) tax returns; (ii) reports to shareholders of the Fund; (iii) reports to, and filings with, the SEC, state securities commissions and Blue Sky authorities including preliminary and definitive proxy materials and post-effective amendments to the Trust's registration statement; and (iv) necessary materials for meetings of the Trust's Board of Trustees. The Adviser shall provide personnel to serve as officers of the Trust if so elected by the Trustees. Executive and administrative services include, but are not limited to, the coordination of all third parties furnishing services to the Fund, review of the books and records of the Fund maintained by such third parties, and the review and submission to the officers of the Fund for their approval, of invoices or other requests for payment of Fund expenses; and such other action with respect to the Fund as may be necessary in the opinion of the Adviser to perform its duties. For its services, the Adviser receives a service fee equal to 0.58% of the average daily net assets of the Fund. For the six month period ended December 31, 2020, the Adviser earned service fees of \$71,800. At December 31, 2020, the Fund owed the Adviser service fees of \$4,951. Unexpected local, regional or global events, such as war; acts of terrorism; financial, political or social disruptions; natural, environmental or man-made disasters; the spread of infectious illnesses or other public health issues; and recessions and depressions could have a significant impact on the Fund and its investments and may impair market liquidity. Such events can cause investor fear, which can adversely affect the economies of nations, regions and the market in general, in ways that cannot necessarily be foreseen. An outbreak of infectious respiratory illness known as COVID-19, which is caused by a novel coronavirus (SARS-CoV-2), was first detected in China in December 2019 and subsequently spread globally. This coronavirus has resulted in, among other things, travel restrictions, closed international borders, enhanced health screenings at ports of entry and elsewhere, disruption of and delays in healthcare service preparation and delivery, prolonged quarantines, significant disruptions to business operations, market closures, cancellations and restrictions, supply chain disruptions, lower consumer demand, and significant volatility and declines in global financial markets, as well as general concern and uncertainty. The impact of COVID-19 has adversely affected, and other infectious illness outbreaks that may arise in the future could adversely affect, the economies of many nations and the entire global economy, individual issuers and capital markets in
